## INF70005

## Strategic Project Management

Semester 1 2026

Please read this Unit Outline carefully. It includes:

PART A Unit summary

PART B Your Unit in more detail

PART C Further information

"Swinburne University of Technology recognises the historical and cultural significance of Australia's Indigenous history and the role it plays in contemporary education

Each day in Australia, we all walk on traditional Indigenous land

We therefore acknowledge the traditional custodians of the land that our Australian campuses currently occupy, the Wurundjeri people, and pay respect to Elders past and present, including those from other areas who now reside on Wurundjeri land"

# PART A: Unit Summary

| | | |
|---|---|---|
| **Unit Code(s)** | | INF70005 |
| **Unit Title** | | Strategic Project Management |
| **Duration** | | 12 Weeks |
| **Total Contact Hours** | | Face to face and on-line: 36 hours |
| **Requisites:** | | |
| | **Pre-requisites** | Nil |
| | **Co-requisites** | Nil |
| | **Concurrent pre-requisites** | Nil |
| | **Anti-requisites** | |
| | **Assumed knowledge** | No specific prior knowledge |
| **Credit Points** | | 12.5 |
| **Campus/Location** | | Hawthorn and Internet |
| **Mode of Delivery** | | Classes (face to face) and On-line (asynchronous) |
| **Assessment Summary** | | Continuous: 100% |

## Aims

This unit examines the concepts, issues and challenges that are critical for implementing, maintaining, and completing projects successfully. The reasons behind contemporary organisations move towards a project approach are considered and the common methodologies, tools and techniques of project management are critically evaluated.

Students will examine the Project Management Body of Knowledge and its knowledge areas from a strategic perspective and evaluate how an organisation's individual industry, culture, structure, and objectives, may influence the project management approach taken. Students will study the risks and challenges that emerge in project management and the tools that have been developed to address these.

## Unit Learning Outcomes (ULOs)

Students who successfully complete this unit will be able to:

1. Demonstrate coherent and advanced knowledge of organisational strategy and the principles of competitive advantage and align these to project management.

2. Critically evaluate project management principles, practices, methodologies, tools and techniques and align these to the strategic objectives of organisations.

3. Critically analyse complex project management problems and identify appropriate solutions to these in the organisational context.

4. Critically evaluate issues in contemporary project management and communicate about these effectively to a diverse range of stakeholders.

5. Communicate effectively as a professional and function as an effective leader or member of a team.

This content is protected and may not be shared, uploaded, or distributed.

## Graduate Attributes

This unit may contribute to the development of the following Swinburne Graduate Attributes:

- Communication skills
- Teamwork skills
- Digital literacies

## Content

1. Introduction to Strategic Project Management
2. Strategic Analysis and Prioritisation
3. Creating Project Value
4. Agile Project Management
5. Project Integration Management
6. Project Scope Management
7. Project Time Management
8. Project Cost Management
9. Project Risks
10. Quality Management
11. Project HR Management
12. Procurement Management

This content is protected and may not be shared, uploaded, or distributed.

# PART B: Your Unit in more detail

## Unit Improvements

Feedback provided by previous students through the Student Survey has resulted in improvements that have been made to this unit:

- This Unit generally is focused on Traditional (Waterfall) approach to Project Management, however, going forward there will be more discussion on Agile Project Management; where / how it can be used individually or with other methods to achieve desired results.
- Provide as many practical examples demonstrating the content as possible.

## Unit Teaching Staff

| Name | Role | Room | Phone | Email | Consultation Times |
|---|---|---|---|---|---|
| Dr Bill Young | Lecturer & Convener | BA1226 | 92143862 | wayoung@swin.edu.au | Mondays 3.30-4.20pm<br>Fridays 1.30-2.20pm<br>Or by appointment |

## Learning and Teaching Structure

| Category | Activity | Total Hours | Hours per Week | Teaching Period Weeks |
|---|---|---|---|---|
| In person | Class lecture | 24 hours | 2 hours | Over 12 Weeks (W10 – W22) |
| Canvas | Learning Activities via podcasts and tutorial sheets (Asynchronous) | 12 hours | 1 hour | Over 12 Weeks (W10 – W22) |
| | Self-paced online learning activities | 114 hours | 9.5 hours | Weeks 10 to 22 |
| | Totals | 150 hours | 12.5 hours | |

## Week by Week Schedule

| Week | Week commencing | Topic to be covered | Assessment In-class |
|---|---|---|---|
| 10 | 2/3 | Introduction to Strategic Project Management | |
| 11 | 9/3 | Strategic Analysis and Prioritisation | |
| 12 | 16/3 | Agile Project Management | |
| 13 | 23/3 | Creating Project Value | **In-class Quiz 1** |
| 14 | 30/3 | Integration Management | |
| 15 | 6/4 | **Semester Break (No class)** | |
| 16 | 13/4 | Project Scope Management | **In-class Quiz 2** |

This content is protected and may not be shared, uploaded, or distributed.

| | | | |
|---|---|---|---|
| 17 | 20/4 | Project Time Management | |
| 18 | 27/4 | Project Cost Management | **In-class Quiz 3** |
| 19 | 4/5 | Project Risk Management | |
| 20 | 11/5 | Project Quality Management | **In-class Quiz 4** |
| 21 | 18/5 | Project Stakeholder, HR & Communication Mng. | |
| 22 | 25/5 | Project Procurement Management | **In-class Quiz *5*** |

## Assessment

### a) Assessment overview

| Tasks and Details | Weighting | Unit Learning Outcomes | Assessment Due Date |
|---|---|---|---|
| Assignment 1<br>Evaluation of a real-world Project (Individual) | 25% | 1, 2, 3 | Due: 25 March 2026 @ 11.59pm |
| Assignment 2: incl. a) and b) | | 1, 2, 3 | |
| a) In-Class Quizzes (Individual) | 2% x 5<br>=10% | | Quiz 1 Due: Week 13<br>Quiz 2 Due: Week 15<br>Quiz 3 Due: Week 17<br>Quiz 4 Due: Week 19<br>Quiz 5 Due: Week 22 |
| b) Project Implementation Plan (Group) | 35% | 1 to 5 | Due: 6 May 2026 @ 11.59pm |
| Assignment 3<br>Research (Individual) | 30% | 1, 2, 3, 4 | Due: 31 May 2026 @ 11.59pm |

**Note: Class Quizzes** will be completed in class.

| Assessment Requirements | Details |
|---|---|
| b) Use of generative AI (genAI) in this unit | The valid use of genAI in this unit is as follows:<br>• AI-assisted idea generation and structuring: AI can be used in the assessment for brainstorming, creating structures, and generating ideas for improving work.<br>• AI-assisted editing: AI can be used to make improvements to the clarity or quality of student created work to improve the final output. |

This content is protected and may not be shared, uploaded, or distributed.

| | |
|---|---|
| | • **Any use of genAI must be acknowledged**, with prompts and outputs included in an appendix. |
| c) Hurdle requirements | To pass this unit, you must: achieve an overall mark for the unit of 50% or more |
| d) Final assessment period | Not applicable |
| e) Submission requirements | Assignments and other assessments are generally submitted online through the Canvas assessment submission system which integrates with the Turnitin .<br><br>Please ensure you keep a copy of all assessments that are submitted.<br><br>In cases where a hard copy submission is required an Assessment Cover Sheet must be submitted with your assignment. The standard Assessment Cover Sheet is available from the Submitting work webpage or www.swinburne.edu.au/studentforms/ |
| f) Extensions and late submissions | Late Submissions in Assignments 1, 2 and 3 - unless an extension has been approved, late submissions will result in a penalty. You will be penalised 10% of the assessment's worth for each calendar day the task is late, up to a maximum of 5 days. After 5 calendar days, a zero result will be recorded.<br><br>All individual assignment extensions must be applied for through the following URL link:<br><br>https://swinuw.au1.qualtrics.com/jfe/form/SV_1C9uT3Vq3sWYMfk<br><br>In-class Quizzes: All In-class Quizzes must be completed and submitted within the designed time of a lecture as notified by the lecturer. Those who fail to present in the designed time will be given a zero for the quiz. |
| g) Referencing | To avoid breaching academic integrity, you are required to provide references whenever you include information from other sources in your work and acknowledge when you have used Artificial Intelligence (AI) tools (such as ChatGPT). Further details regarding academic integrity are available in Section C of this document.<br><br>Referencing conventions required for this unit are: APA 7th Edition<br><br>Helpful information on referencing can be found at http://www.swinburne.edu.au/library/referencing/ |
| h) Groupwork guidelines | A group assignment is the collective responsibility of the entire group, and if one member is temporarily unable to contribute, the group should be able to reallocate responsibilities to keep to schedule. In the event of longer-term illness or other serious |

| | |
|---|---|
| | problems involving a member of group, it is the responsibility of the other members to notify immediately the Unit Convenor or relevant tutor.<br><br>All group members must be satisfied that the work has been correctly submitted. Any penalties for late submission will generally apply to all group members, not just the person who submitted. |

## Required Textbook(s)

Textbooks (reference only, not required to buy)

The Unit Canvas shell has a range of suggested reading material. The Library has a large collection of resource materials, both texts and current journals.

Most articles will either be available on counter reserve, or directly accessible via the Swinburne Library's electronic databases, plus articles from a number of academic and professional journals.

This content is protected and may not be shared, uploaded, or distributed.

# PART C: FURTHER INFORMATION

For further information on any of these topics, refer to Swinburne's Student webpage http://www.swinburne.edu.au/student/

## Student behaviour and wellbeing

All students are expected to: act with integrity, honesty and fairness; be inclusive, ethical and respectful of others; and appropriately use University resources, information, equipment and facilities. All students are expected to contribute to creating a work and study environment that is safe and free from bullying, violence, discrimination, sexual harassment, vilification and other forms of unacceptable behaviour.

The Student Charter describes what students can reasonably expect from Swinburne in order to enjoy a quality learning experience. The Charter also sets out what is expected of students with regards to your studies and the way you conduct yourself towards other people and property.

You are expected to familiarise yourself with University regulations and policies and are obliged to abide by these, including the Student Academic Misconduct Regulations, Student General Misconduct Regulations and the People, Culture and Integrity Policy. Any student found to be in breach of these may be subject to disciplinary processes.

Examples of expected behaviours are:

- conducting yourself in teaching areas in a manner that is professional and not disruptive to others
- following specific safety procedures in Swinburne laboratories, such as wearing appropriate footwear and safety equipment, not acting in a manner which is dangerous or disruptive (e.g. playing computer games), and not bringing in food or drink
- following emergency and evacuation procedures and following instructions given by staff/wardens in an emergency response.

## Canvas

You should regularly log on to the Swinburne learning management system, Canvas. You can access Canvas via the Student login webpage or https://swinburne.instructure.com/ Canvas is updated regularly with important unit information and communications.

## Communication

All communication will be via your Swinburne email address. If you access your email through a provider other than Swinburne, then it is your responsibility to ensure that your Swinburne email is redirected to your private email address.

## Academic Integrity

Academic integrity is about taking responsibility for your learning and submitting work that is honestly your own. It means acknowledging the ideas, contributions and work of others; referencing your sources and acknowledging the use of generative artificial intelligence;

This content is protected and may not be shared, uploaded, or distributed.

contributing fairly to group work; and completing tasks, tests and exams without cheating. Artificial intelligence tools should only be used where approved by the Unit Convenor.

Swinburne University uses the Turnitin system, which helps to identify inadequate citations, poor paraphrasing and unoriginal work in assignments that are submitted via Canvas. Your Unit Convenor will provide further details.

Plagiarism, collusion, contract cheating, unauthorised file sharing, falsification, fabrication, manipulation or misrepresentation of information, reuse of previous work and non-compliance with instructions in an invigilated or non-invigilated assessment item are all breaches of academic integrity and treated as academic misconduct. Examples of breaches of academic integrity include, but are not limited to:

- submitting work as your own for assessment that has been fully or partially completed by a third party, either paid or unpaid
- using output from artificial intelligence tools (e.g. ChatGPT) in whole or part without acknowledgement and/or without the approval of the Unit Convenor
- using another person's work or ideas as though it is your own work, without appropriate attribution
- working closely with another student or group of students (either past or current), to submit for assessment, some or all of the other student or students' work as your own work
- sharing without permission of the Unit Convenor, Swinburne resources or other material related to assessment to an entity or document repository site
- creating, intentionally modifying or inventing information that is intended to be submitted as part of an assessment item
- using the whole or part of a computer program written by another person as your own without appropriate acknowledgement
- poorly paraphrasing somebody else's work
- using a musical composition or audio, visual, graphic and photographic work created by another person without acknowledgment
- enabling others to cheat, including letting another student copy your work or by giving access to a draft or completed assignment
- letting someone or something else impersonate you, or you impersonate someone else in an invigilated or non-invigilated assessment item
- accessing, obtaining and/or providing to others unauthorised materials relating to an invigilated or non-invigilated assessment item.

The penalties for academic misconduct can be severe, ranging from a zero grade for an assessment task through to exclusion from Swinburne. For further details, see https://www.swinburne.edu.au/student-login/academic-integrity/

## Student support

Swinburne offers a range of services and resources to help you complete your studies successfully. Your Unit Convenor or studentHQ can provide information about the study support and other services available for Swinburne students. For further information, see the Current students web page.

This content is protected and may not be shared, uploaded, or distributed.

## Special consideration

If your studies have been adversely affected due to serious and unavoidable circumstances outside of your control (e.g. severe illness or unavoidable obligation), you may be able to apply for special consideration (SPC).

Applications for Special Consideration are submitted via the SPC online tool normally no later than 5.00pm on the third working day after the submission/sitting date for the relevant assessment component. See https://www.swinburne.edu.au/life-at-swinburne/student-support-services/special-consideration-assistance/

*Note: Submitting fraudulent (fake or altered) medical certificates is considered misconduct and can lead to serious penalties from Swinburne. In addition, your doctor may report fraudulent medical certificates as a prosecutable offence under the Victorian Crimes Act.*

## AccessAbility Services

If you are a student with a disability, medical or mental health condition or you have significant carer responsibilities, you may require reasonable adjustments to fully access and participate in education. Swinburne's AccessAbility Services can develop an Education Access Plan (EAP) that includes the services and reasonable adjustments that you need.

It is recommended that you register with AccessAbility Services when you first commence your course but you can contact the service at any time during your studies to find out about reasonable adjustments. Contact Accessibility Services to discuss further.

## Review of marks

An independent marker reviews all fail grades for major assessment tasks. In addition, a review of assessment is undertaken if your final result is between 45 and 49 or within 2 marks of any grade threshold.

You can ask the Unit Convenor to check the result for an assessment item or your final result. Your request must be made in writing within 10 working days of receiving the result. The Unit Convenor can discuss the marking criteria with you and check the aggregate marks of assessment components to identify if an error has been made. This is known as local resolution. If you are dissatisfied with the outcome of the local resolution, you can lodge a formal complaint.

## Feedback, complaints and suggestions

In the first instance, discuss any issues with your Unit Convenor. If your concerns are not resolved or you would prefer not to deal with your Unit Convenor, then you can complete a feedback form. See https://www.swinburne.edu.au/corporate/feedback/

## Advocacy

If you require assistance with any academic issues, University statutes, regulations, policies and procedures, you are advised to seek advice from an Independent Advocacy Officer at the Swinburne Student Association. Talking to an Advocacy Officer is free, independent and confidential. For more information and booking an appointment, please see https://www.swinburne.edu.au/current-students/student-services-support/advocacy/
