Assignment 3

1. Writing
2. Understanding
3. Model
4. Presentation

Your assessment will be marked against the following marking guide:

Criteria	No pass	Pass 50-59%	Credit 60-69%	Distinction 70-79%	High Distinction 80-100%
Writing (10%)	Did not meet criterion .	Reasonably clear, concise explanations and correct grammar. Reasonable attention–to–detail in regards to errors. The Swinburne Harvard Referencing Style is sometimes used inaccurately and inconsistently impacting on the quality of the report.	Mostly clear, concise explanations and correct grammar. Good attention–to–detail in regards to errors. The Swinburne Harvard Referencing Style is sometimes used inaccurately and inconsistently.	Clear, concise explanations and correct grammar. Great attention–to–detail in regards to errors. The Swinburne Harvard Referencing Style is used with few errors.	Exceptionally clear, concise explanations and correct grammar. Exceptional attention–to–detail in regards to errors. The Swinburne Harvard Referencing Style is used impeccably with no errors.
Understanding	Did not meet criterion .	Basic addressing of discussion topic. Basic clarification of terms, and use of concepts and theories does not exhibit deep understanding of topic and relevant course content	Reasonably clear addressing of criteria and use of terms, concepts and theories to demonstrate understanding of topic and relevant course content	Strong addressing of criteria and use of appropriate terms, concepts and theories to demonstrate strong understanding of topic and the relevant course content.	Exceptional demonstration of criteria and use of criteria, terms, concepts and theories showing exceptional understanding of relevant course content.
Understanding (40%)	Did not meet criterion .	Reasonable familiarity with, and critical understanding of, the relevant literature. A somewhat comprehensive study of the topic through research, demonstrating a reasonable conceptual understanding of the topic. Reasonable use of relevant examples to support an argument.	Good familiarity with, and critical understanding of, the relevant literature. A mostly comprehensive study of the topic through research, demonstrating a reasonable conceptual understanding of the topic. Good use of relevant examples to support an argument.	Great familiarity with, and critical understanding of, the relevant literature. A comprehensive study of the topic through research, demonstrating a great conceptual understanding of the topic. Great use of relevant examples to support an argument.	Exceptional familiarity with, and critical understanding of, the relevant literature. An exceptionally comprehensive study of the topic through research, demonstrating an exceptional conceptual understanding of the topic. Exceptional use of relevant examples to support an argument.
Model (25%)	Did not meet criterion .	omewhat reasonable use of the risk model selected. Sufficient connection between the risk	Good use of the risk model selected. Good connection between the risk assessment and	Great use of the risk model selected. Great connection between the risk	Exceptional use of the risk model selected. Exceptional connection between the risk

		assessment and strategy and objectives. Provided brief explanation of the risk model selected.	strategy and objectives. Provided good explanation of the risk model selected.	assessment and strategy and objectives. Provided great explanation of the risk model selected.	assessment and strategy and objectives. Provided exceptional explanation of the risk model selected.
Presentation (Powerpoint) (25%)	Did not meet criterion .	Reasonable integration of key concepts and the predominant framework into a clear and concise discussion. Reasonably structured and argued. Demonstrated reasonable working knowledge when challenged to defend findings and/or conclusions and recommendations. The options you have identified outlined. It is somewhat clear how you developed them, The strengths, limitations and risks of each option are able to be identified but may lack clarity. Your preferred, recommended options are identified but some justification may be missing. The key action steps are described.	Good integration of key concepts and the predominant framework into a clear and concise discussion. Well structured and argued. Demonstrated good working knowledge when challenged to defend findings and/or conclusions and recommendations. The options you have identified are outlined. It is clear how you developed them. The strengths, limitations and risks of each option are able to be identified. Your preferred, recommended options are identified and justified. The key action steps are described in sufficient detail.	Great integration of key concepts and the predominant framework into a clear and concise discussion. Very well structured and argued. Demonstrated great working knowledge when challenged to defend findings and/or conclusions and recommendation s. The options you have identified are clearly outlined. It is quite clear how you developed them. The strengths, limitations and risks of each option are clearly identified. Your preferred, recommended options are identified and fully justified. The key action steps are described accurately and in detail.	Exceptional integration of key concepts and the predominant framework into a clear and concise presentation. Exceptionally structured and argued. Demonstrated exceptional working knowledge when challenged to defend findings and/or conclusions and recommendations. The options you have identified are clearly and succinctly outlined. It is very clear how you developed them. The strengths, limitations and risks of each option are clearly identified with exceptional reasoning. Your preferred, recommended options are clearly identified and fully justified. The key action steps are described precisely and in detail.
